

July 15, 2015

Attn: Members of the Alabama Alcoholic Beverage Study Commission

I would like to express my support for the Fairhope Brewing Company in their pursuit for legislation that would allow breweries to sell beer to-go directly to the public from the taproom. The Fairhope Brewing Company has proven to be very community minded since its' inception. It is evident from their many connections with local non-profits that they care about the community and strive to make it a better place. They have proven that they have the interest of the community at the very heart their business philosophy.

They have supported the American Cancer Society in several capacities over the past two years. The Fairhope Brewing Company has established an annual fundraiser to benefit our organization. They planned, organized, promoted and made their own charitable donation in support of our organization through this annual fundraising event. They have also participated in and donated to other local events benefitting our organization, too. I believe that any enhancements that will help their business grow and flourish will help our community grow and flourish, as well.

Best Regards,
