

Memorandum

June 3, 2015

To: Alcohol Study Commission & Interested Parties
From: Paul Sanford & Alan Harper, Co-chairs
Subject: Study Commission Specific Mission

It has come to our attention that “external folk,” outside of committee members, feel the Study Commission is a means to open up the ABC laws and influence Commission recommendations that fall outside the purview and mission statement of the Commission.

The Alcohol Study Commission will only focus on the Three Tier System and Licensing! The Commission will not consider franchising laws or any other topics outside of Three Tier and Licensing. I hope this is made perfectly clear by this memorandum and those who receive it.

We appreciate all the information being provided to Mr. Othni Lathram and please continue to send same to him. Also, there are a couple of questions posted on the link of the Alabama Law Institute to the Commission relative to issues and solutions. I would ask our lobbyist friends to please take the time and answer these questions, and provide feedback to Othni, so we can begin to look at topics that will surface at our public hearings.

Please call on us if you have questions.

Thank you.
